

Watermat 10m

1,2,3... Run!

This fun 10 metre long water mat is the ultimate balance test on water. The mat is airtight, which means it only has to be inflated once and no continuous blower is required. Challenge kids to run over the mat to see who can make it to the other side without falling in the pool and making a splash. A fun thing to watch!

Safety and service

JB develops and manufactures attractions that can safely be used by all players. All water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. All attractions come with an approved inspection certificate, a log book and a user manual. In addition, we provide you with a Bravo air pressure gauge to ensure the right air pressure can be entered. Please note: the anchor points have to be fastened with appropriate anchoring materials to keep the mat in place and prevents it from floating off or getting too close to other objects. It is the complete package for a fantastic experience.

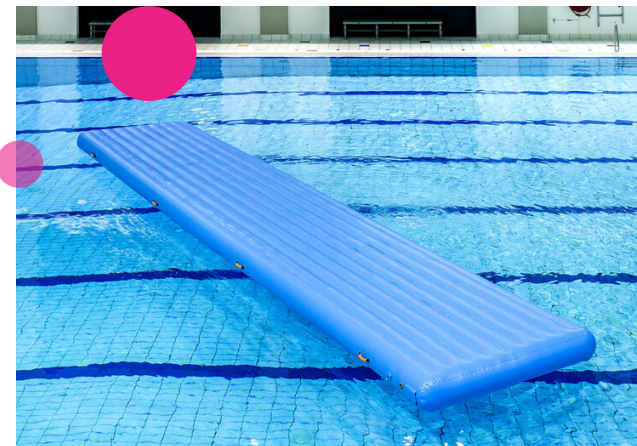

Durable quality

JB sets very high demands for its products. In order to guarantee quality, we use high frequency welded PVC material of 900 gr/m2. The material we use is strong and colourfast. In addition, the material is resistant to influences of chlorine and other water properties. The water attractions are durable and easy to keep clean. The 10 metre long water mat comes with a 1-year warranty.

Purchase this inflatable water mat and deliver the experience your customers will remember!

Opt for more than 15 years of experience

At JB, we are proud to say that we have made people around the globe jump for joy well over 15 years now. Our team of designers, developers and logistic staff supply unique inflatable attractions in a grand way! That is exactly why our customers are assured of our professional service and delivery. It is for good reason they tend to call us 'creators of greatness'.
